Maths

Go on a 3-D shape hunt around your house to collect lots of different shaped objects.

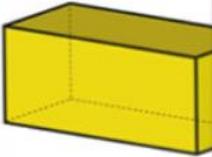

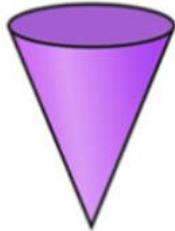

What do you notice about the shape of each object?  
Look at the similarities and differences.  
Now sort your objects into groups.

Can you talk about why you have sorted your objects in that way?  
Is there a different way you can sort your objects?

Last week we learnt about 3D shapes with the children, we would like you to go on a 3-D shape hunt around your home. The 4 3D shapes we learnt about last week are cuboid, cylinder, sphere and cone. Don't forget to send us pictures of what you find in your house and which 3D shape it is.

Curriculum

**On-going project**

**Growing a sunflower**

Growing a sunflower- your child will have come home with an envelope that has a sunflower seed inside. We would like you to plant the sunflower seed and then we are going to have a competition to see who can grow the tallest sunflower. Throughout the half term we would like you to send us pictures updating us on the progress.

Home learning to be completed at any time throughout the week. All activities are set on seesaw, once they are completed we would like you to send it back to us on seesaw. If you have any questions you can send us a message through the inbox. Thanks, Miss Savage and Miss Bradshaw
